PROFESSIONAL EXPERIENCE

SDE (Trainee)

NDSoftTech Solutions | July 2025 – Present

- Designed and developed multiple user facing interfaces for both ReactJS and React Native applications.
- Optimized codebase readability by introducing reusable components.
- Worked with backend database and transformed data in various way to fetch useful data from the backend.

ReactJS Developer (Intern)

Dreams International Infosoft | Nov 2024 – May 2025

- Participated in end-to-end project development—from initial coding to final deployment—ensuring reliable performance in production environments.
- Developed numerous reusable React components to accelerate development and maintain a clean, scalable codebase.
- Took charge of complete UI redesigns for multiple projects, improving how they looked, felt, and performed.
- Worked closely with design teams and backend engineers to turn concepts into functional, polished web applications.

PROJECTS

Commercial Website - Hiten Enterprises | https://hitenenterprises.in

- Clean, responsive business website designed to highlight services and product portfolio.
- Google Sheets-powered CMS: client updates product and service data directly in a spreadsheet.
- Conversion of Google Drive image links into `lh3.googleusercontent.com` format for rendering.
- Professional design system with consistent typography, branding, and responsive layouts.
- Responsive layout with mobile-first design using TailwindCSS.
- Low-maintenance and cost-effective solution without traditional backend overhead.

Photography Portfolio Website | https://frames-by-ashwin.onrender.com

- Secure admin dashboard protected via JWT authentication for managing content.
- Image uploads handled via Multer and stored on Cloudinary.
- Separation of standalone photos and curated albums for a cleaner browsing experience.
- Responsive layout with mobile-first design using TailwindCSS.
- Minimalist, distraction-free UI design that highlights photographic content.
- Hosted on Render with a Node/Express backend and MongoDB Atlas.

EDUCATION

BE Computer Engineering | Dhole Patil College of Engineering, Kharadi | 7.65 CGPA | 2024

HSC | CMS English Medium Higher Secondary Schools, Pradhikaran | 85% | 2020

SSC | Amrita Vidyalayam, Nigdi | 84% | 2018
